LAVENDER PHOENIX & COMMON ROOTS YOUTH (CPA, CYC & PODER)

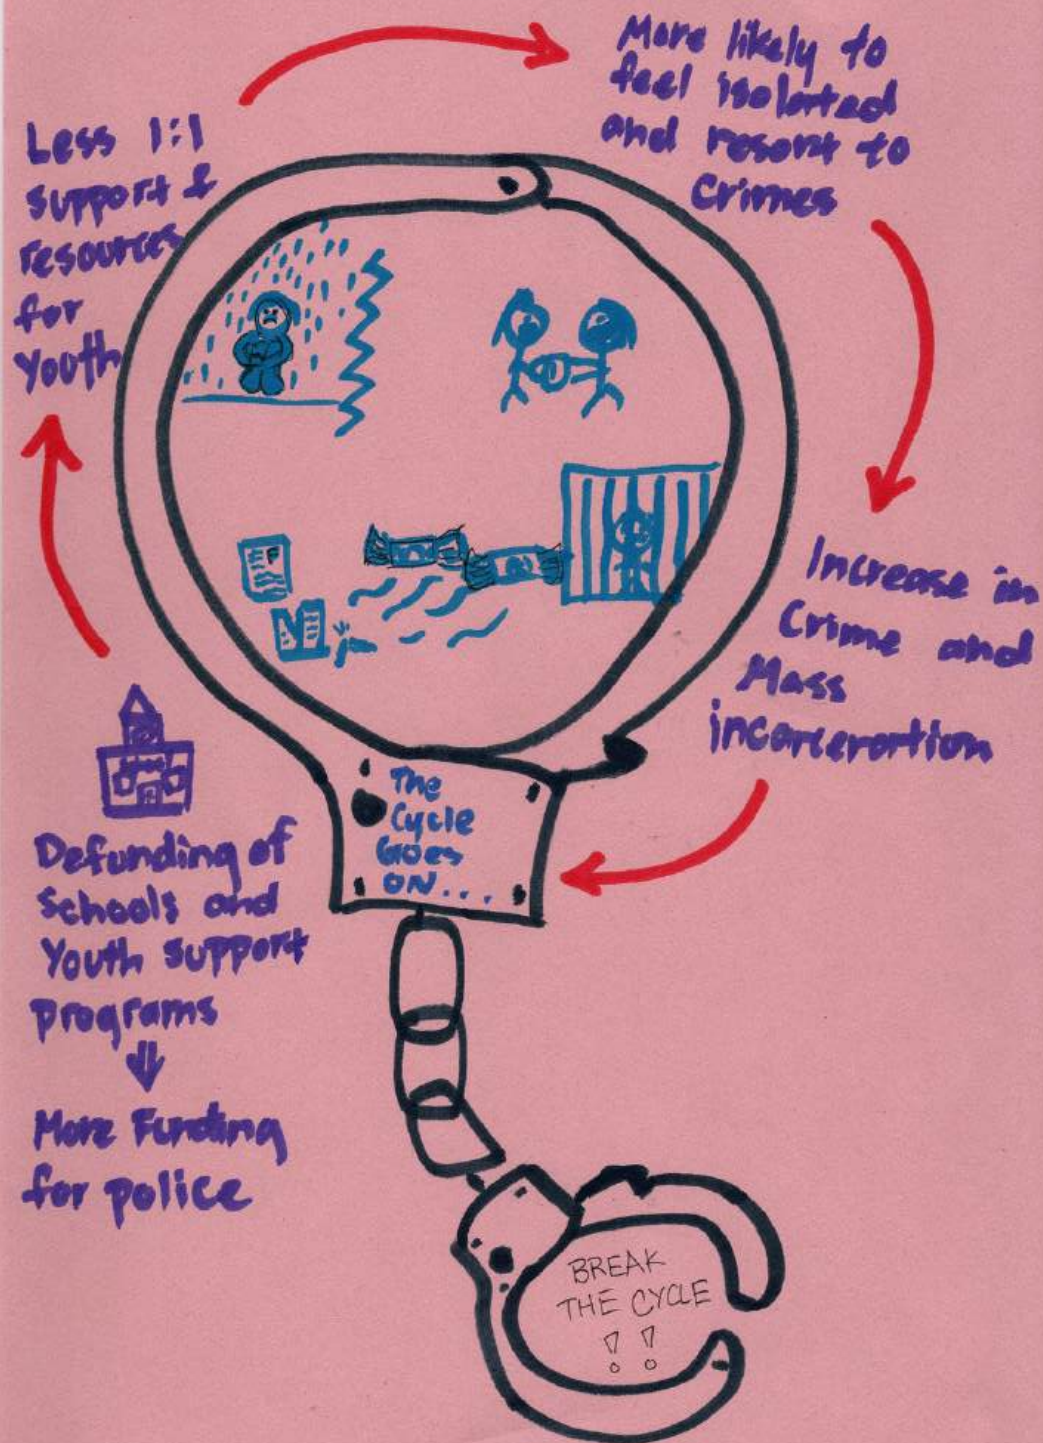

Lavender Phoenix (formerly known as APIENC) is an organization building trans, nonbinary and queer API power. Through organizing in the San Francisco Bay Area, we inspire & train grassroots leaders, transform our values, & sustain a vibrant movement ecosystem!

We work with other API, transgender, QTBIPOC and LGBTQ-led groups to advance healing justice, community safety, and movements centered in values and relationships.

You can learn more about Lavender Phoenix's Care Not Cops campaign @ lavenderphoenix.org/care-not-cops !

VISIONS OF a WORLD WITHOUT POLICING

This zine collects the work of 19 San Francisco organizers & Common Roots youth (CPA, CYC & PODER)). We first grounded in the conditions of policing in SF & reflected together on alternative care practices. Then, our goal was to uplift those reflections through art, which is what you see here in this zine!

Youth were given free reign to create any art that followed the theme of a “vision of a world without policing”. They were also given the following prompts to support their brainstorming:

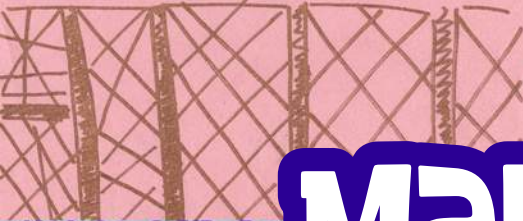

- 3 words we think of when we hear policing
- 1 experience with police
- 1 future with policing vs 1 future without policing
- 3 moments of community care

We are so proud of all these artists & their amazing work! Enjoy!!

Families should not be separated!!
Say no to detention camps!

Fear and injustice

The system isn't THE FAIR! THE People
